

Scottish Health and Homelessness Conference 2017 – Discussion Questions

Round table discussions (1)

- Where are your shadows?

Round table discussions (2)

- What are your priorities for local systems change
- What data do you collect and who can you share it with?
- What research questions or service planning questions do you have that could potentially be answered by the health and homelessness data?

Round table discussions (3)

- What are the opportunities within Health and Social Care partnerships to prioritise the health and homelessness agenda? What are the challenges and how do we overcome them?
- How will we know we have made a difference?
- What actions can we take forward collectively to support this work?

Round table discussions (4)

- Is PIE new?
- How can health and housing providers work jointly to adopt a psychologically informed approach?
- How do you think this would address the health inequalities faced by homeless people?
