

This report shows all payments made within a time period, prompted at refresh. There are three queries. The data has been purged for security.

Please do not change the date filters in the query as these are prompted at refresh and will refresh all three queries at one time. .

TOTAL: - The first query deals with the total amount paid to each supplier during the prompted period. this is restricted to show supplier payments that in total are over £25,000.

ANALYSIS: - the second query looks at all payments to a supplier then filters the report to show only individual payments over £25,000.

TRANSFER: - the third query looks at all sub ledger transfers to ensure that nothing is missed.

The analysis page meets the requirements of the PSRA guidance and this is the report which the AP Focus Group have adopted to be published on the intranet.
